Park Forest Water District Black Forest, Colorado

2021 BUDGET MESSAGE

Park Forest Water District is a Special District under Title 32 and uses the accrual method of accounting. The District was established in 1957 to provide water services to the District. The major activities include the production of ground water, and the sale and delivery of water to domestic and commercial accounts.

Park Forest Water District is authorized by title 32 of the Colorado Revised Statues to use a number of methods to raise revenues for capital needs and general operations costs (CRS 32-1-1101). These methods, subject to the limitations imposed by section 20 of article X of the Colorado constitution, include issuing dept, levying taxes, and imposing fees and charges.

The District's two primary sources of revenue are the sale of water to customers whose property resides with the water district boundaries, and property taxes collected and disbursed by the El Paso County Treasurer's Office. The District also has several secondary sources of income which include bulk water sales, late fees, tap fees, and investment income.

Beginning in 2017, litigation has required that a significant portion of the District revenue be allocated to legal fees. A summary judgment was finalized in 2020 in favor of the District in one court case. There is currently one active case in litigation.

IMPORTANT FEATURES OF THE 2021 BUDGET:

- Monthly base charge remains unchanged
- Allocate funds to replace worn-out truck
- Allocate funds as available to continue mainline replacement
- Build a reserve for upgrading meters system wide
